A Word from the KICC 2026 Leadership

Dear Colleagues, Partners and Friends,

On behalf of KESHO, it is my pleasure to welcome you to the 9th Kenya International Cancer Conference, KICC 2026. As cancer care continues to evolve across our region, this conference offers an important platform for connection, collaboration and shared learning among clinicians, researchers, policymakers, partners and industry. We look forward to a meaningful gathering in Mombasa that will help strengthen relationships, inspire new thinking and support better outcomes for patients across Africa.

Prof. Fred Chite Asirwa
KICC 2026 Conference Chair
Medical Oncologist & Haematologist

From the Co-Chair

KICC 2026 is being carefully shaped to reflect both the evolving science of oncology and the realities of cancer care delivery across our region. Our programme brings together practical clinical insights, multidisciplinary perspectives and emerging innovations, fostering meaningful engagement across all disciplines and sectors – with discussions that will be valuable to every member of the cancer care community.

Dr. Catherine Nyongesa
KICC 2026 Conference Co-Chair
Consultant Clinical & Radiation Oncologist

About KESHO

The Kenya Society of Haematology and Oncology (KESHO) is a professional society of oncology and haematology specialists dedicated to improving cancer and blood disorder care in Kenya and across the region.

Founded in 2002, KESHO supports:

- Oncology education and training
- Cancer research and innovation
- Multidisciplinary collaboration
- National cancer control strategies

About KICC

The Kenya International Cancer Conference (KICC) is KESHO's flagship scientific meeting and one of the most important oncology events in East Africa.

Previous editions have attracted:

- **600+** delegates
- Oncology Specialists from **20+** countries
- Multidisciplinary oncology professionals
- Health system leaders and policymakers

CEO & Cancer Advocate

Mr. Evan Ole Mapelu

Pharmacist and Cancer Advocate.
Chairman, Henzo Kenya.

RN Roselyne A. Okumu

Lecturer & Oncology Nurse Specialist
President, ONS-K

Prof Shahin Sayed

Associate Professor
Consultant in Anatomical Pathology & Cytology

Dr. Jonathan Wawire

Consultant Anatomic Pathologist

Ms. Benda Kithaka

Health Advocacy
Behaviour Change Communications Specialist

Dr. Nashat Noor

Clinical Oncologist & Epidemiologist

Dr. Mukuhi Ng'ang'a

Consultant Breast Surgeon

Dr. Samuel Nguku

Consultant, Radiology and Nuclear Medicine

Theme: Equity, Excellence & Sustainable Impact in Cancer Care

KICC 2026 will explore innovative solutions to improve cancer outcomes across Africa through the following sub-themes:

Precision Medicine and Diagnostics

Oncology Workforce Development

Digital Health and AI in Oncology

Health Systems Strengthening

Implementation Science

Patient Advocacy and Survivorship

Programme at a Glance

15 to 21 November 2026 | Mombasa, Kenya

ABSTRACT SUBMISSION DEADLINE

29 May 2026

15 NOV

Screening and Wellness Camp

Community outreach focused on screening, early detection, health education and direct public engagement ahead of the conference.

18 NOV

Pre Conference Workshops

Specialised workshops in real world data, career development and leadership, radiation oncology, and patient advocacy and survivorship.

19 NOV

Day 1 | Opening, Plenary I and Policy Dialogue

Conference opening with Plenary I, keynote addresses and policy dialogue, followed by parallel scientific streams in lung & thoracic, head & neck, gynaecologic, precision oncology & diagnostics, therapeutics, palliative care and breast cancer.

20 NOV

Day 2 | Plenary II, Rapid Fire and Parallel Tracks

A full scientific day featuring Plenary II, evidence from the field rapid fire, and breakouts in haematology, hepatobiliary, urology, paediatric oncology, GIT, radiation oncology, nursing and nutrition, followed by the gala dinner.

21 NOV

Day 3 | Keynotes, Best Abstracts and Close

The final day brings poster viewing, international society and specialty keynotes, best abstract rapid fire presentations, awards and the official conference close.

Note: The final scientific programme will reflect confirmed faculty, abstracts & session updates.

Who Will Attend

THE 9TH
KENYA INTERNATIONAL
CANCER CONFERENCE

- Medical Oncologists
- Clinical Oncologists
- Haematologists
- Surgeons
- Radiologists
- Palliative Care Specialists
- Gynaecologists
- Paediatric Oncologists/Haematologists
- Residents/Fellows-in-Training
- Clinical Officers
- Medical Officers
- Medical Physicists
- Oncology Nurses
- Urologists
- Researchers
- Cancer Advocates
- Pathologists
- Oncology Pharmacists
- Undergraduate Students
- Lab Technicians
- Nutritionists

PRE-CONFERENCE WORKSHOPS

Dates: 18 November 2026

KICC 2026 will feature specialised workshops designed to strengthen clinical and research capacity.

Workshop 1

Real World Data for Real World Impact

Using data and registries to improve cancer care outcomes.

Workshop 2

Career Development & Leadership

Supporting the next generation of oncology leaders.

Workshop 3

Radiation Oncology

Training in modern radiotherapy techniques.

Workshop 4

Patient Advocacy & Survivorship

Strengthening patient-centred cancer care.

Limited spots available, pre-registration required.

Why KICC Matters in Africa's Oncology Landscape

Cancer incidence across Africa is rising rapidly, creating an urgent need for expanded access to diagnostics, treatment and specialised oncology expertise. Kenya has emerged as one of the region's leading centres for cancer care and clinical leadership, with growing investment in oncology infrastructure, specialist training and national cancer control programmes.

The Kenya International Cancer Conference serves as a key platform bringing together the professionals and institutions shaping this evolving landscape.

KICC connects:

Leading oncology
specialists from across
Africa and beyond

Multidisciplinary care
teams and service
leaders translating policy
and science into patient
care

Academic researchers
advancing clinical and
translational cancer
research

Industry partners
developing new therapies,
diagnostics and
technologies

National and regional
policymakers responsible
for cancer control
strategies

Patient advocates
working to improve
cancer awareness and
access to care

Through scientific exchange, collaboration and innovation, the conference contributes to strengthening oncology systems and advancing patient outcomes across the region.

For sponsors and partners, KICC provides a unique opportunity to engage meaningfully with the clinicians, researchers and health leaders driving the future of cancer care in Africa.

KICC 2026 Screening & Wellness Camp

15 November 2026 | Target Reach: 1,000 residents

THE 9TH
KENYA INTERNATIONAL
CANCER CONFERENCE

What the Camp Delivers

A one-day, community-based outreach bringing essential health services closer to underserved coastal populations. The camp will offer:

- Cancer screening: cervical, breast & prostate
- Sickle cell disease testing
- HPV vaccination
- NCD screening
- Mental wellness support

Why It Matters

This integrated approach helps tackle several pressing health needs through a single, efficient platform. It supports:

- Early detection and timely referral
- Reduced barriers to access and cost
- Greater community awareness
- Improved health-seeking behaviour
- Better long-term treatment outcomes

Why Partner

Through this initiative, KESHO is advancing equitable access to early diagnosis and quality care in line with national health priorities. Partner support will help deliver measurable impact at community level, strengthen health systems and contribute to better cancer outcomes across Kenya.

For further information on this initiative send an email to info@kesho-kenya.org

Why Sponsor KICC 2026?

By partnering with KICC 2026, organisations gain a unique opportunity to engage directly with the professionals shaping cancer diagnosis, treatment and policy across Africa.

Direct Access to Decision-Makers

Engage with medical oncologists, haematologists, radiation oncologists, surgeons, gynaecologists, pathologists, oncology nurses, pharmacists and other specialists who influence clinical practice and treatment pathways.

High-Impact Brand Visibility

Position your organisation prominently within one of the region's most respected oncology conferences through extensive on-site, digital and print branding.

A Platform to Showcase Innovation

Present emerging therapies, diagnostics and technologies to a highly targeted clinical audience actively seeking advancements in cancer care.

Meaningful Scientific Engagement

Participate in scientific discussions, sponsored symposia and educational sessions that contribute to the advancement of oncology practice.

Strategic Policy and Health System Exposure

Interact with policymakers, research leaders and health system stakeholders shaping the future of cancer care across the region.

Alignment with a Leading Oncology Community

Demonstrate your organisation's commitment to improving cancer outcomes and supporting professional education in Africa.

SPONSORSHIP PACKAGES

THE 9TH
KENYA INTERNATIONAL
CANCER CONFERENCE

Main Conference Partner

KES 7,000,000

Exclusive Opportunity (1)

The Conference Partner represents the highest level of sponsorship at KICC 2026 and offers unparalleled visibility and engagement with the oncology community across Africa.

This **exclusive partnership** positions your organisation as a leading supporter of cancer research, education and innovation in the region.

Benefits include:

- Opportunity to deliver brief remarks during the official conference opening ceremony.
- Host a dedicated scientific symposium within the conference programme enabling your organisation to showcase thought leadership and scientific innovation.
- Prime exhibition space within the conference exhibition area.
- Prominent logo placement across conference branding including:
 - Main plenary hall screens
 - Conference signage and digital displays
 - Conference media wall
 - Official conference website and promotional materials

(contd.)

Main Conference Partner

KES 7,000,000

Exclusive Opportunity (1)

Benefits include: *(Continued from previous page)*

- Featured recognition across KESHO's digital platforms, conference newsletters and event promotions.
- Premium full-page advertisement placement in the conference event book.
- 8 full conference registrations including access to the Gala Dinner.
- Opportunity to interact with clinicians, researchers and policy leaders across Africa's oncology landscape.

SPONSORSHIP PACKAGES

THE 8TH
KENYA INTERNATIONAL
CANCER CONFERENCE

Platinum Scientific Partner

KES 5,000,000 | 2 Opportunities

The Platinum Scientific Partner tier offers organisations significant visibility and the opportunity to align their brand with a major scientific track of the conference. This package is ideal for organisations seeking to highlight innovation and leadership in a specific therapeutic or research area.

Benefits include:

- Host a scientific symposium programme.
- Brand association with one of the conference's major thematic tracks (eg Precision Oncology, Haematologic Malignancies, Diagnostics or Digital Health).
- Prominent exhibition booth placement.
- Logo placement across key conference materials including:
 - Conference website
 - Conference event book
 - On-screen branding during sponsored sessions
- Full-page advertisement within the conference event book.
- 6 full conference registrations including Gala Dinner access.
- Acknowledgement across conference announcements and digital communications.

Gold Partner

KES 3,000,000 | 3 Opportunities

The Gold Partner package provides sponsors with the opportunity to align their organisation with a key disease or specialty track within the KICC 2026 scientific programme.

This tier offers meaningful visibility within a focused clinical audience & positions the sponsor as a supporter of scientific dialogue and education in a specific therapeutic area.

Benefits include:

- Brand association with a dedicated disease or specialty track within the conference programme (e.g. Breast Oncology, Haematologic Malignancies Radiation Oncology, Precision Oncology, or Gynaecologic Oncology).
- Opportunity to organise a sponsored scientific symposium within the conference programme, providing a platform to highlight research, innovation and clinical insights relevant to the chosen disease area.
- Exhibition space within the conference exhibition area.
- Logo placement on screens & session slides during the sponsored track sessions.
- Full-page advertisement in the official conference event book distributed to all delegates.
- 5 full conference registrations, including access to the Gala Dinner and networking events.
- Logo placement in the conference event book & the official conference website.
- Opportunity to connect with clinicians, researchers and healthcare leaders specialising in the sponsored disease area.

SPONSORSHIP PACKAGES

THE 8TH
KENYA INTERNATIONAL
CANCER CONFERENCE

**Gala Dinner
Co-Host**

Gala Dinner Co-Host

KES 3,000,000 | 1 Opportunity

The KICC Gala Dinner is one of the most anticipated networking events of the conference, bringing together delegates, speakers, industry leaders and policymakers in a relaxed setting for high-level engagement.

Benefits include:

- Exclusive branding at the official KICC Gala Dinner
- Opportunity for an address during the dinner programme
- Prominent logo placement on all dinner signage and digital displays
- VIP reserved table for invited guests and company representatives
- Branding on the official photo backdrop
- Logo recognition on the conference website and sponsor pages
- Acknowledgement in the conference event book
- Full-page advertisement in the conference book
- Visibility across pre-conference promotional communications

ADDITIONAL SPONSORSHIP OPPORTUNITIES

THE 9TH
KENYA INTERNATIONAL
CANCER CONFERENCE

Welcome Cocktail Sponsor

KES 1,500,000 | 1 Opportunity

The Welcome Cocktail reception officially opens the conference & provides an important networking opportunity for delegates & speakers.

Benefits include:

- Branding across the Welcome Cocktail reception area
- Logo placement on cocktail event signage and serving stations
- Opportunity to deliver brief welcome remarks during the reception
- Recognition in the conference event book
- Logo placement on the conference website sponsor page
- Half-page advertisement in the conference book

Abstract & Awards Sponsor

KES 1,500,000 | 2 Opportunities

Support emerging oncology research by sponsoring the KICC Scientific Abstract Awards, recognising outstanding research contributions from across Africa.

Benefits include:

- Branding across the Welcome Cocktail reception area
- Logo placement on cocktail event signage and serving stations
- Opportunity to deliver brief welcome remarks during the reception
- Recognition in the conference event book
- Logo placement on the conference website sponsor page
- Half-page advertisement in the conference book

ADDITIONAL SPONSORSHIP OPPORTUNITIES

THE 9TH
KENYA INTERNATIONAL
CANCER CONFERENCE

Venue & Host County

Sarova Whitesands - Mombasa, Kenya

Johari Convention Center - 1,200 pax

Moi International Airport - 21 km

City Centre ~30 min

Why the Venue Works

Large-format conference capacity

Johari can host up to 1,200 delegates.

Business-ready support

Conference coordinator, secretarial support and business centre available.

Technical readiness

Audio-visual equipment plus photocopying, telephone and stationery support.

Accessible location

Mombasa is accessible through Moi International Airport, which handles both domestic and international flights.

Why Mombasa Adds Strategic Value

Regional connectivity

Mombasa sits on the Northern Economic Corridor linking Kenya to the wider East African region.

Gateway relevance

County sources describe Mombasa as a major gateway to East and Central Africa.

Meeting destination with reach

The location supports delegate movement, international and regional participation.

Mombasa, Kenya

A strategic regional gateway for East African delegates

Sponsorship Opportunities Open

Partner With Us KICC 2026

Join a leading African oncology platform bringing together clinical expertise, scientific exchange, policy dialogue and strategic collaboration.
